Pontificia Universidad Católica de Chile

Professional profile

Mechanical Engineering student with a strong interest in advanced engineering applications, mechanical systems, and data-driven problem solving. Experienced in CAD, simulation, and hands-on mechanical work through research, advanced manufacturing projects, and technical environments. Particularly interested in design, analysis, performance optimisation, and high-performance engineering technologies.

Education

2021–2026 **Mechanical Engineering**, Pontificia Universidad Católica de Chile, Santiago, Chile

2025 **B.Sc. Engineering Sciences**, Pontificia Universidad Católica de Chile, Santiago, Chile

Experience

2026 **Mechanic / Engineer**, Kartaholics Racing Team, Santiago, Chile

- Preparing and maintaining racing karts for training and competition, contributing to vehicle setup, reliability and on-track performance improvement.

2026 **Internship – Manufacturing Processes (Composite Materials)**, Empresa Nacional de Aeronáutica de Chile (ENAE), Santiago, Chile

- Supporting composite manufacturing process development and engineering documentation for aeronautical applications, including technical research on tooling.

2025 **Internship – Automotive Mechanic**, JGC Motors, Santiago, Chile

- Supporting diagnosis and maintenance of automotive mechanical systems in a workshop environment.

2025 **Undergraduate Research – Erosion Simulation in Turbulent Flow**, Pontificia Universidad Católica de Chile, Santiago, Chile

- Conducting CFD modelling, simulation, and post-processing for erosion in turbulent flow.

Additional Experience

Teaching Assistant, Pontificia Universidad Católica de Chile: ICM2503 Manufacturing Processes (2025); ICM2803 Dynamics of Mechanical Systems (2024).

Undergraduate Research – Cycling power meter with strain gauges, Pontificia Universidad Católica de Chile (2022).

Skills

Technical CAD (Autodesk Inventor, intermediate; CATIA, basic); CFD and engineering simulation (OpenFOAM, ANSYS); Python; Microsoft Office.

Languages Spanish (native); English (B2).

Certifications

TOEFL iBT – ETS, March 2026. Overall score: 5.0/6.0 (CEFR C1).

Awards and Distinctions

Bronze Medal – Chilean Physics Olympiad, 2020.

National Champion – Olympic Cross-Country Cycling (XCO), 2016.
